

MASTER OF EDUCATION

N-DL/140/7/0025(07/25)/MQA/PA 13884 (06/25)

UNIRAZAK's Master of Education is designed to provide you with the professional knowledge, skills and attributes to function effectively as an educator or to pave the way to become an academic scholar. The programme is tailored to be flexible for those from various backgrounds such as in-service teachers, working adults, education officers and aspiring researchers in the field of education, whose experience will be engaged as valuable components of the programme.

In this Master of Education programme, you will develop a strong background in education theories and practices, so that as an academic scholar or education researcher, you will be able to apply scientific methods to identify problems and offer appropriate solutions. The learning experiences will equip you with professional skills in interpersonal relations and teamwork, as well as develop skills needed for writing academic research. It will prepare graduates with important work-related skills such as teacher leadership and team-building skills, decision making, learning strategies and school management, critical and analytical thinking skills and project management skills. This is in line with UNIRAZAK'S mission to produce quality graduates with relevant workplace experience and competencies.

The blended learning mode will give you the flexibility to engage in problem-based learning using workplace or on-site learning strategies. The range of distance and blended learning delivery options employed by UNIRAZAK provide flexible learning opportunities for all students, regardless of their location. Students are taught by highly qualified, experienced, and supportive teachers who will provide a high level of pastoral care.

This is a one-year program, notable for its flexible nature, utilising digital technologies to ensure you can participate at any time and place, whilst enabling you to continue working as you study.

SCHOOL OF EDUCATION AND HUMANITIES (SEH)

SEH is committed in providing coherent, developmental-based teacher education programmes that prepare potential students to establish and work within the teaching and learning communities which helps to maximize their own potentials and the potentials of their future students. The programmes offered by SEH promote collaborative learning and critical reflection as a way to develop a community of life-long learners who can respect diverse perspectives, make informed decisions, and be responsive to the changing needs of individuals in our society. All of our programmes are designed based on the philosophy that knowledge is power and every child deserves to be taught ethically by quality professionals and teachers who believe that all children are capable of learning. Thus, the goal of the school is to ensure graduates acquire professional knowledge, develop professional skills, and exhibit dispositions that they will need in order to be effective teachers as well as contributing members of the society. SEH offers pertinent programmes in education and language studies that prepare its graduates to accept, honour and enhance the diversity of learners and discover their teacher persona through reflection and progressive field experiences. The programmes offered are Diploma in Early Childhood Education, Bachelor of Education (Early Childhood Education) (Honours), Bachelor of Education (Honours), Bachelor of English (Honours), Postgraduate Diploma in Education, Master of Education, Master of Education (TESL), Master in Early Childhood Education and Doctor of Philosophy in Education.
